Author **Kim Cameron** is a true believer in inspiring kids and nurturing their imagination. As a musician, Kim teaches vocal lessons to students at the School of Rock and serves as a mentor with the Miami-based music education non-profit Guitars Over Guns. While on tour in the Caribbean, Kim met a bright, imaginative 12-year-old girl who was fascinated with octopi. This brief encounter inspired the creation of "Mr. Octopus," a children's tune released on Kim's record label. Soon after, using the song as inspiration, Kim penned the first book in the *Seaper Powers* series, sparking her journey as an author!

Kim and the *Seaper Powers* team value education and community outreach, frequently visiting Miami-area schools, summer camps, and non-profits including Big Brothers Big Sisters, Branches, and Nicklaus Children's Hospital to provide fun, interactive storytime and puppet presentations. Recently, Kim collaborated with local educators to develop a K-3 *Seaper Powers* Lesson Plan Guide with suggested curriculum and projects inspired by the Florida Next Generation Standards, perfect for classrooms and homeschools.
